After 60 years' reform and innovative development, the Canton Fair has withstood various challenges and never been interrupted. The Canton Fair enhances trade connection between China and the world, demonstrating China's image and achievements of development. It is an outstanding platform for Chinese enterprises to explore the international market and an exemplary base to implement China's strategies for foreign trade growth. The Canton Fair serves as the first and foremost platform to promote China's foreign trade, and a barometer of the foreign trade sector. It is the window, epitome and symbol of China's opening up.

On the opening of the 120<sup>th</sup> Canton Fair in October, 2016, Chinese President Xi Jinping sent a congratulatory letter; Chinese Premier Li Keqiang gave instructions. The congratulatory letter of President Xi and instructions of Premier Li affirm the Canton Fair's important status and contributions in China's reform and opening up and eco-social development and point out the key and direction of our work, significant for expanding China's opening up,

cultivating new competitive edges of foreign trade sector, building China into a strong trading power, and driving reform and innovation at the Canton Fair.

At present, following the direction pointed out in President Xi's congratulatory letter and Premier Li's instructions, we, at the Canton Fair, uphold the development principle of innovation, coordination, green development, openness, and sharing, and spur innovation in the system and business mode. We are continuously improving specialization, information application, market orientation, and international development. We are endeavored to build a "Smart Canton Fair" and "Green Canton Fair". We are working hard to transform Canton Fair from an export trading platform to a comprehensive one integrating customer networking, display and negotiation, industrial exchange, information release and product promotion. We will give full play to Canton Fair's function as an overall opening-up platform and will utilize both domestic and international markets and resources at a higher level.
